Design and Development Guidelines

1. User Experience (UX) Considerations

- **Responsive Design:** Ensure the website is fully responsive across all device types (desktops, tablets, smartphones).
- **Navigation:** Clear and intuitive navigation structure for easy access to all pages.
- **Accessibility:** Design with accessibility standards in mind for all users, including those with disabilities.

2. Visual Design (UI)

- **Brand Consistency:** Maintain consistency with TQ Medical and Diagnostics brand colours, fonts, and imagery.
- **Visual Hierarchy:** Use appropriate visual hierarchy to guide users' attention through the website.
- **Whitespace:** Utilise whitespace effectively to enhance readability and focus.

3. Content Strategy

- **Compelling Content:** Engaging and informative content tailored to each page's purpose.
- **SEO Optimization:** Implement SEO best practices (meta tags, headings, keywords) for improved search engine visibility.

4. Functionality and Features

- **Integration of Add-ons:** Implement web-enabled features, blog integration, newsletter subscription, and social media integration (Facebook, Twitter, YouTube).
- **Live Chat Support:** Integrate Whatsapp chat support for real-time customer interaction.
- **Google Maps Integration:** Display location(s) and directions using Google Maps.

5. Performance and Security

- **Loading Speed:** Optimise website performance to ensure fast loading times.
- **Security:** Implement necessary security measures to protect user data and website integrity.

Timeline

- **Development Timeframe:** Approximately 20 working days from quote acceptance to go-live.
- **Maintenance:** 1 month free after delivery, subsequent maintenance at N70,000 per month starting from the 2nd month after launch.

Budget

- **Development and Configuration of Web Pages:** N 250,000.00
- **Creative Designs (UI/UX):** N 100,000.00
- **Infrastructure & Hosting:** N 50,000.00

The Fine Print

- All concepts, designs, and code become 100% owned by the client upon full payment.
- System analysis requires a 70% advance payment to commence development.

CONCLUSION

This comprehensive framework for the TQ Medical and Diagnostics website project lays the groundwork for a robust, user-friendly, and technologically advanced online presence. By adhering to these guidelines, we at PhlipTech, will deliver a website that effectively represents the client's brand, engages users, and leverages modern web technologies. With a clear timeline and budget, we are well-positioned to create a standout digital platform that will serve as a valuable asset for TQ Medical and Diagnostics' growth and client engagement in the medical and diagnostics sector.
